

R/RStudio Resources

- Lynda.com
 - Video classes on a variety of topics. You have access for free using a King County or Snohomish County library card. See individual links below. Some R video classes available:
 - Learning R: Introduces the R statistical processing language, including how to install R, read data from SPSS and spreadsheets, analyze data, and create charts and plots.
 - R Statistics Essential Training: Use R to model statistical relationships using its graphs, calculations, tests, and other analysis tools.
 - R for Excel Users: Update your data science skills by learning R. Learn how common data analysis and statistics operations are run in Excel vs. R and how to move data back and forth between each program.

 - To login with a King County Library Card
 - <https://www.lynda.com/portal/sip?org=sno-isle.org>
 - To login with a Snohomish County Library Card
- Google and Youtube. Seriously, someone out there has done what you are trying to do and has uploaded directions on how to do it.
- Some books I have found helpful:
 - The Book of R a First Course in Programming and Statistics by Tilman M. Davies
 - Statistical Analysis with R for Dummies by Joseph Schmuller
